The mission is to promote peace, human rights & sustainable development and the declarations, principles and guidelines of the United Nations, with focus on Agenda 2030 & Sustainable Development Goals (SDGs). CIFAL Flanders conducts Action Learning trainings to empower leaders in society and to link theory to practice in national and subnational policies, local authorities, trade unions, civil society, academia and businesses.

The power of action learning is built on a process combining theory with practice during an interactive peer-to-peer visit working on real challenges. The focus is to explore the sustainability initiatives of industry and international frameworks, theoretical models and best practices using the knowledge and skills of a small group of executives combined with skilled questioning, to re-interpret old and familiar concepts and produce fresh ideas.

The internship offers a learning opportunity in a small and motivated team for a graduate who is interested in Corporate Social Responsibility and Sustainable Development as well as in dealing with governments, companies, civil society, the academic world, foundations, and the United Nations.

On the basis of this perspective, the candidate will be assigned the following tasks as a Project Manager:
