Global Network

unitar
United Nations Institute
for Training and Research

The United Nations Institute for Training and Research (www.unitar.org) is a dedicated training arm of the United Nations System, and has the mandate to enhance the effectiveness of the UN through diplomatic training, and to increase the impact of national actions through public awareness-raising, education and training of public policy officials.

The CIFAL Global Network is UNITAR's network of affiliated centres dedicated to provide cutting-edge training aimed at strengthening the capacities of government authorities and key change agents from local and sub-national levels to design and implement innovative solutions to global challenges. As of January 2019, the CIFAL Global Network is comprised of 18 training centres located across Africa, Asia, Europe, Australia and the Americas, reaching to 10,000 beneficiaries annually through more than 100 capacity building activities.

Message from the Executive Director

The 2030 Agenda for Sustainable Development provides the world with an undeniable opportunity to bring about widespread, positive change for humanity. The interconnected, universal and transformational nature of the Agenda requires collective responsibility, accountability and action, with governments, the United Nations system, and a range of other stakeholders all contributing to the implementation of the Sustainable Development Goals. The development of knowledge and the transfer of skills, in addition to other forms of capacity, will undeniably play an important role in this process.

UNITAR and its network of CIFAL training centres are committed to make a meaningful and impactful contribution towards the implementation of the Agenda, as well as the other major outcomes from 2015, including those of the Sendai (Disaster Risk Reduction) Paris (Climate Change) and Addis Ababa (Financing for Development) conferences.

The CIFAL Global Network assists primarily local authorities by providing training and learning opportunities, as well as by facilitating city-to-city cooperation that leads to the development and implementation of specific actions in support of sustainable development.

We invite you to join our training activities and to support our common endeavor to achieve the world we want by year 2030.

Nikhil Seth
United Nations Assistant Secretary-General
Executive Director of UNITAR

cifal
Global Network

The CIFAL Global Network is UNITAR's network of training centres dedicated to strengthening the capacities of government authorities and civil society leaders to advance sustainable development.

CIFAL Centres provide an international platform for knowledge exchange, supporting sharing and dissemination of best practices and lessons learned across cities. With its City-Share methodology, CIFALs foster multi-stakeholder collaboration that leads to the design of innovative solutions to address current challenges.

Outreach

Over the last six years, the Network has reached close to 75,000 beneficiaries through over 650 training events. In 2018, the CIFAL Global Network reached 23,190 beneficiaries around the world through 147 training events.

The substantial increase in training services and greater outreach reflects both, the expansion of the Network and the continued demand for capacity building at local and subnational levels. The CIFAL Global Network also offers training activities aimed at raising awareness of the Agenda 2030 for Sustainable Development including its 17 Goals and 169 Targets.

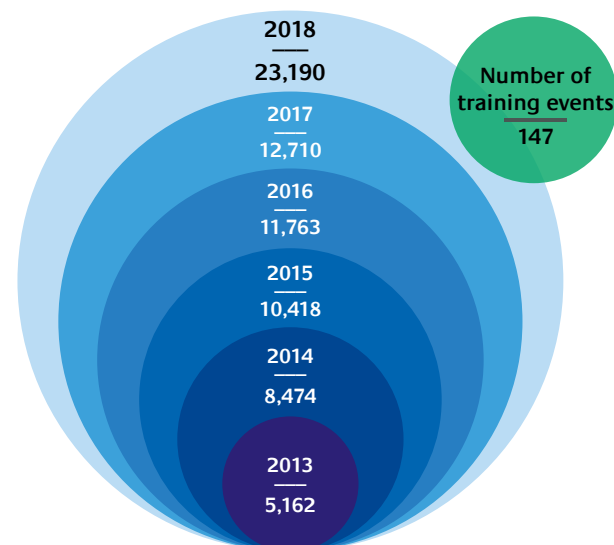

HIGHLIGHTS IN 2018

23,190 government officials, private sector representatives and civil society leaders from around the world participated in CIFAL centres activities.

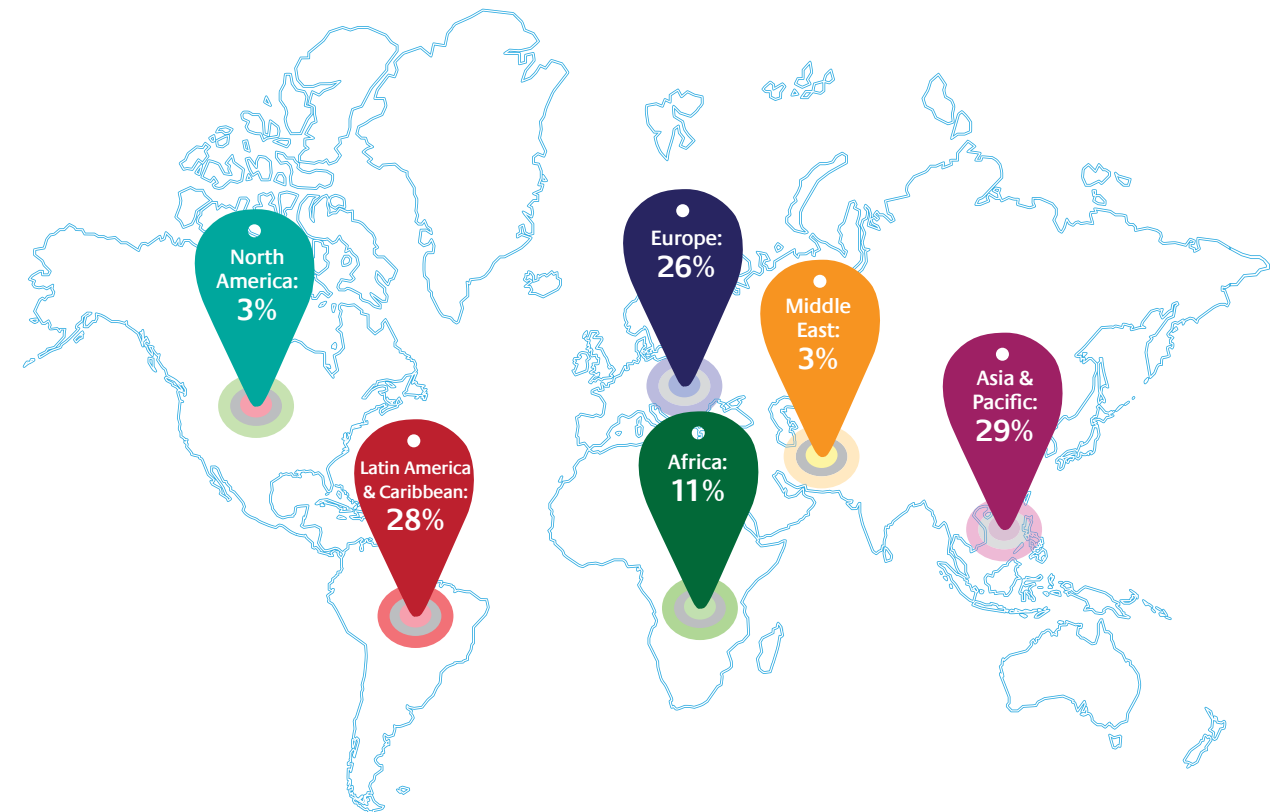

More than 100 countries from Africa, Asia-Pacific, Europe, North, Central and South America, as well as from the Caribbean were reached in 2018.

147 training and raising awareness events implemented by the CIFAL Global Network in 2018 covering a variety of topics in the areas of urban planning and governance, economic development, social inclusion, environmental sustainability, and leadership.

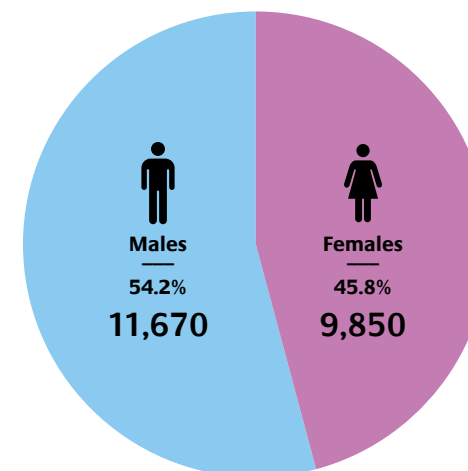

OUR BENEFICIARIES (2013 - 2018)

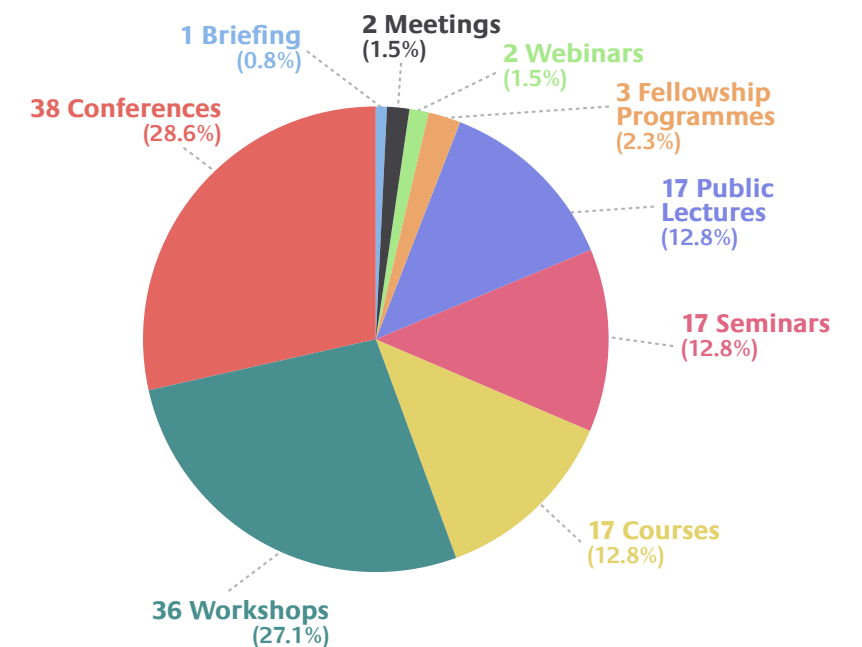

BENEFICIARIES BY REGION

BENEFICIARIES BY GENDER

TYPE OF EVENT

CIFAL Thematic Areas

As of January 2019, the CIFAL Global Network is comprised of eighteen centres across Africa, Asia, Australia, Europe, and the Americas.

Each “Centre International de Formation des Autorités et Leaders” (CIFAL) provides innovative training on key areas related to sustainable development and serves as hubs for the exchange of knowledge amongst government officials, non-governmental and international organizations, the private sector, civil society, academic institutions and the UN system.

Each CIFAL is specialized in thematic areas that are defined by the needs and priorities of the regions they serve. Their training programmes provide access to knowledge, resources and best practices, while promoting multi-stakeholder collaboration in support of sustainable development.

Areas of work of the CIFAL Global Network

Urban Governance and Planning	Economic Development	Social Inclusion	Environmental Sustainability	Cross-cutting

CAPACITY FOR AGENDA 2030

This agenda is a plan of action for people, planet and prosperity. The Goals and targets will stimulate action over the next fifteen years. The CIFAL Global Network is dedicated to help governments and other stakeholders build capacity to mainstream, implement and review Agenda 2030.

URBAN GOVERNANCE & PLANNING

Cities are engines for sustainable development and prosperity. Through the provision of innovative training and networking opportunities, the CIFAL Global Network contributes to build capacities of local government officials and leaders to plan and design cities in a sustainable way, improve the provision of public services and infrastructure, and prepare cities to be resilient, among many others.

CROSS - CUTTING

The CIFALs provide training on cross cutting areas that are essential for advancing sustainable development such as leadership. Achieving the Sustainable Development Goals and addressing current challenges requires collaborative and innovative leadership. CIFALs offer training opportunities to enhance leadership skills and to promote effective collaboration.

SPECIAL INITIATIVES

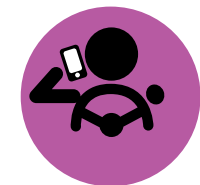

A training initiative of UNITAR, to contribute to halve the number of global deaths and injuries from road traffic accidents by 2020. SDG 3.6

Strengthening road safety for sustainable cities

Road traffic injuries claim more than 1.2 million lives each year with a disproportionate impact on health and development. They are the ninth leading cause of death across all age groups globally and the leading cause among young people aged between 15 and 29 years.

UNITAR's initiative on road safety aims to contribute to achieve SDG 3.6 to halve the number of global deaths and injuries from road traffic accidents by 2020.

UNITAR jointly with its CIFAL Global Network provide training opportunities aimed at strengthening capacities of government officials at local and national levels to implement road safety strategies and programmes.

Changing road users' behavior on key risk factors for road traffic injuries (speed, drink-driving, distracted driving, and the failure to use helmets, seat belts and child restraints properly or at all) is a key component for improving road safety. UNITAR and its CIFAL Centres also contribute to improve road user behavior through advocacy efforts and by increasing awareness of risk factors.

Training Activities in 2019

3-5 April
High Visibility Enforcement Training Workshop
Santo Domingo, Dominican Republic

30 April - 2 May
High Visibility Enforcement Training Workshop
Lagos, Nigeria

11 April
Road Safety for Local Governments
Quito, Ecuador

1 May; 28 October; 25 November
Child Road Safety and Driving Course

25 September
Ideas and Solutions Fair on Road Safety and Urban Mobility
Curitiba, Brazil

POST-GRADUATE COURSES 2019

In addition to training and e-Learning courses, UNITAR and CIFAL Centres provide the opportunity to gain knowledge through post-graduate courses. UNITAR partners with academic institutions to offer diplomas and certificates, as well as Master's degrees.

Postgraduate Diploma on Road Safety Management and Leadership

27 May – 21 June 2019

Madrid, Spain

Road traffic injuries claim more than 1.2 million lives each year with a disproportionate impact on health and development. They are the ninth leading cause of death across all age groups globally and the leading cause among young people aged between 15 and 29 years.

The 2030 Agenda for Sustainable Development has set a goal of reducing road traffic deaths and injuries by 50% by 2020. Training and education is essential to contribute to reduce the number of deaths and injuries.

The Postgraduate Diploma on Road Safety Management and Leadership is offered by UNITAR, CIFAL Madrid, RACE and the European University, with the objective of empowering individuals responsible for road safety with knowledge and practical tools that will enable them to reduce traffic fatalities.

For more information, contact: info@cifalmadrid.org

Postgraduate Diploma in Child Road Safety

21-25 October 2019

Madrid, Spain

Children are among the most vulnerable road users. Every day, more than 500 children are killed in a road traffic collision, and tens of thousands are injured, often suffering lifelong disabilities.

The Postgraduate Diploma in Child Road Safety offered by CIFAL Madrid in collaboration with the Smart Baby Initiative provides a theoretical understanding of road safety focused on children, while offering educational resources and practical strategies that aim to improve road safety for kids.

Master in Managing Emergencies and Catastrophes

UN Photo/ Bernardino Soares

March – December 2019

Malaga, Spain

The University of Malaga, CIFAL Malaga and UNITAR are offering the Master in Managing emergencies and catastrophes that exposes professionals, organisations and communities to global best practice knowledge, and tools to implement the new UN Sustainable Development Goals and the Sendai framework for Disaster Risk Reduction.

This programme equips people from diverse backgrounds to understand how to manage emergencies and better respond when disasters strike. It aims to enhance organisations' capacity to prepare for and manage disasters, operate through extreme events and emerge better placed to face the future.

Master in Cultural Tourism Management and Local Development

October 2019 – September 2020

Malaga, Spain

Tourism is considered an important factor for a country's overall national growth. Tourism has the potential to generate employment opportunities and stimulate the development of infrastructure through the construction of roads, airports, and ports, from which the economy as a whole can benefit. Tourism can also serve as a powerful means to preserve a country's heritage, to share its culture and diversity, values, resources, and skills.

This Programme provides a framework to understand the importance of cultural tourism for economic growth and sustainable development and analyses what other countries around the world are doing to promote their heritage and traditions, and to develop strategies that promote cultural tourism.

Master of Sustainable Air Transport Management

1 October 2019

Online

CIFAL Merida, in collaboration with the business school specialized in aeronautical and airport management studies, ITAerea Aeronautical Business School, the Airport Group of the Southeast of Mexico (ASUR) and the Airports Council International Latin America and the Caribbean (ACI-LAC) offers The Diploma in Airport Management - online modality.

The main objective of the program is to standardize the knowledge of the personnel who are in charge of airport terminals, in order to maintain the safety and proper functioning of the airports in accordance with international standards. The program covers topics such as the airport system in the world, infrastructure –problems of capacity and operation, airport facilities, air cargo, security, environment, commercial development, business management, among others.

The diploma targets personnel with experience in the airport sector. It is recommended that the participant occupy a position of command or supervision, as the contents of the course are advanced and the concepts presented in the diploma represent a previous level of knowledge acquired.
